

KIDS SUBLIMATION

Get crafting with your kids with this sublimation starter pack! This bundle is designed with the little ones in mind and includes the Artesprix sublimation markers and a fun assortment of items to personalize! With the Artesprix markers, your kids can take their hand-drawn masterpieces and permanently apply them to a wide array of items. There's no sublimation printer needed!

Whats Included:

- HUG 3-10, Jersey Sublimation Bottle Coozies for 12oz Bottles, Qty 1
- SB4052, Hardboard Sublimation Magnet - 2" x 3" Rectangle, Qty 1
- SB4600CS, One Sided Square Aluminum Sublimation Keychain, Qty 1
- SPUZ30, 30 Piece Jigsaw Puzzle for Sublimation Printing, Qty 1
- C35 Round, White Sublimation Fabric Top Coasters - 3.5" Round 1/4" Thick, Qty 1
- MARK 10P, Artesprix Sublimation Permanent Thermal Heat Transfer Markers, Qty 1 Set

TIPS & TRICKS

- Adhere the image in place with thermal tape.
- To restore the markers, just keep them tip side down.
- If your transfers are coming out less vibrant than expected, make sure that you are printing on the correct side of your sublimation paper, which is typically bright white. The other side is generally off-white.
- Remove transfer immediately to avoid smoking out/ghosting.
- If using text in your image, write on the back side with a ballpoint pen and trace on the opposite side to ensure that the text is reverse.

Coastal
BUSINESS SUPPLIES

- Print image in reverse. Check for protective film before pressing.
- Press according to below time/temperature/pressure.
- After pressing, remove paper immediately.

NOTE: Jetcol DHS sublimation paper's unique coating allows for faster transfers than regular sublimation paper. When using Jetcol DHS, reduce the press time by approximately half the recommended time.

Instructions & Information

Temperature: 385-400°F
Time: 45 Seconds
Pressure: Medium

SPUZ30, 30 Piece Jigsaw Puzzle

Temperature: 400°F
Time: 30-45 Seconds
Pressure: Medium

C35 ROUND, White Sublimation Fabric Top Coasters

Temperature: 400°F
Time: 30-45 Seconds
Pressure: Medium

MARK 10P, Artesprix Sublimation Permanent Thermal Heat Transfer Markers

- Use the markers to create your artwork on plain copy paper. Be sure to use in a well-ventilated area and to protect surfaces from possible bleed through. The final product is mirror image, so text must be reversed. (Note: final image will be brighter than it appears on paper.)
- Secure your design face down to the item using thermal tape.
- Place under heat while adding pressure according to the recommended pressing instructions provided by the vendor of the substrate.
- Allow item to cool before handling.
- Remove tape and paper from the item to reveal your bright and vivid design!
